

HARMONIE

Trifolium pratense

Profile

HARMONIE is a healthy variety with a solid yield performance. The Red clover reaches high dry matter yields and confirms this especially in the total dry matter yield in the second year of use as a main crop. Furthermore, HARMONIE has a good persistence and a high crude protein content. The healthiness of the variety is shown in the good resistance characteristics against anthracnose of clover and mildew.

National listing/Official recommendation:

BY, CH, DE, EE, FR, LU, UA, UK

Sowing rate: 15-20 kg/ha

- very healthy yielder
- high crude protein content
- a variety without weaknesses

General

Ploidy

diploid
