

LIKEIT

ca. S 180 | ca. K 180

Everybody Likes IT

Profile

LIKEit is a new very early forage maize. The variety has, although very early, a relatively long growth habit and a nice cob that leads to high starch content. LIKEit is a hybrid that was developed especially for cooler regions. The flint maize showed one of the best early vigors in the British NL trials and can be grown on every site.

- Rapid juvenile development
- High starch yields and contents
- Very good total dry matter yield
