

# COUNTRY H 2116

"Brandenburger" horse meadow

Developed with the Brandenburg Stud Neustadt Dosse (Germany) for grazing and cutting on dry sites

## Profile

This mixture was developed with the Brandenburg Main and County Stud Neustadt Dosse (Germany) and is suitable for hay and silage production in the 1st cut with subsequent grazing, especially on dry sites, due to the combination of upper and lower grasses.

- ✓ Suitable for dry sites
- ✓ Palatable upper and lower grasses
- ✓ Smooth-stalked meadow grass and Red fescue for high sward density

## Components

|     |                               |
|-----|-------------------------------|
| 28% | Festuca pratensis             |
