Racetrack

Specialised mixture for racetracks and show grounds

Profile

Racetracks and equestrian show grounds place the highest demands on sward quality. This specially developed seed mixture combines premium sward grass varieties with strong root systems, perfectly designed for heavily used equestrian sports grounds.

A high content of deep-rooting tall fescue combined with robust kentucky bluegrass, creates a dense, durable sward with excellent wear tolerance. The result is a safe and even surface that remains stable under intensive use.

For durable, high-performance equestrian show grounds — supporting confident performance from both horse and rider.

- Extremely durable sward – ideal for racecourses and competition grounds
- High tall fescue and Kentucky bluegrass content – strong roots, strong sward
- Better footing, stronger stability and resistance for high-intensity use

Components

50%	Festuca arundinacea
25%	Lolium perenne (Pasture type)
25%	Poa pratensis

Sowing pattern

	New sowing

Cultivation notes

Sowing rate	300 kg/ha
Sowing time	from March to beginning of September
