

COUNTRY FIELD FORAGE 2483 ORGANIC

Clover-, alfalfa grass perennial

Profile

COUNTRY Field Forage 2483 is a high yielding mixture for one-to-two years field forage cultivation. The high content of Red clover and Alfalfa supports nitrogen fixation and protein content and the ryegrass ensures high forage quality.

- ✓ N-fixation
- ✓ High protein content
- ✓ High forage quality

Components

30%	Trifolium pratense Harmonie, Milvus
20%	Lolium perenne (early) Mirtello
20%	Italian ryegrass Dorike
20%	Lolium hybridum AstonCrusader
10%	Medicago sativa (EU-variety) Planet, EU-variety

* also suitable for intercropping, yield in 1st cut above average

Cultivation notes

New sowing	30 - 35 kg/ha
Sowing time	from April to August
Usage per year	3 - 5

All organic mixtures are produced with 100 % organic content, if possible, in accordance with the EU Organic Farming Regulation 2018/848. For mixtures with at least 70% organic content, the farmer must obtain approval from his inspection body for the use of the conventional content before sowing, starting with production in January 2022. We aim to use at least 2 varieties per ripening group for mix proportions of more than 20 % of one species and for German ryegrass. The choice of varieties may vary depending on production. If individual species or varieties are not available, they are replaced by equivalent ones. The seed strengths are calculated for an optimal seedbed; in case of poor external conditions - such as insufficient seedbed, late sowing date, insufficient nutrient supply and unfavourable weather - the seed strengths should be adjusted upwards.

All specified informations, recommendations and representations mentioned here are made to the best of our knowledge and belief, but without guarantee of completeness or accuracy. We cannot guarantee that the properties described are repeatable. All information is provided as an aid to decision-making. Deutsche Saatveredelung AG excludes adhesion for damage or claims for damages, resulting of the use for the variety specified in this description. Mixture compositions may change if individual varieties are not available. As of 07/2023. Subject to change without notice.
