

TERRALIFE® - CEREALPRO

Species-rich admixture and undersowing mixture for cereal crop rotations

Profile

CerealPro brings species richness to cereal growth. The balanced mixing ratio prevents competition with each other and at the same time stimulates soil life in an extremely diverse way. After the cereal harvest, some of the species are retained and are then an ideal winter cover crop. The intelligent site coverage ensures good weed suppression.

- ✓ Low competition with cereals
- ✓ Intense rooting
- ✓ Diverse composition
