

VARIANTAL / INDEM 1355

ca. S 280 | K 260

All in one - for silage and grain

Profile

VARIANTAL is a high-performance dent corn. In the 2024-2025 EU trials, it proved itself to be the best K 260 grain corn. For example, in 2025, this hybrid was the only variety to show no stalk rot whatsoever. Its high yield stability across locations and years is remarkable. VARIANTAL was also tested as silage corn. Its average to good mass yields were supported by high starch contents.

- Grain-Dent-Variety
- very high grain yield
- high silage yield

General

Usage	
Silo maturity	mid-late
Grain maturity	mid-late
Maturity forage	ca. 280
Maturity grain	260
Type of grain	dent
Hybrid	Single-cross

Breeder classification: +++ = very good / very high | ++ = good / high | + = medium

Resistance to diseases

Maize smut	⊕ ⊕ ○
Helminthosporium	⊕ ⊕ ○

Location

Soil type	
Humidity	

Sowing

Forage	8 - 9 Plants/m²
Grain	7 - 8 Plants/m²
