

# INDEM 1355

All in one - for silage and grain

ca. S 270 | ca. K 260

## Profile

The new dual-purpose hybrid INDEM 1355 is an all-rounder in the medium-late segment with very high total dry matter yields and high grain yields. The biogas yields are also not to bad for a dual-purpose type. Due to its medium starch content but high energy yields, the variety is also ideal for use in animal feed.

- ✓ Mid-late double-purpose variety
- ✓ High Dry Matter yields
- ✓ Very high grain yield
