

IONITI

CA. S 290 | CA. K 280

Profile

IONITI is the new grain maize hybrid for favorable locations. The hybrid shows exceptionally high grain yields with a good health status of the plant until harvest.

- ✓ High grain yields
- ✓ Great plant health
- ✓ Grain maize for favorable conditions

General

Usage	
Silo maturity	mid-late
Grain maturity	mid-late
Maturity forage	ca. 290
Maturity grain	ca. 280
Hybrid	Single-cross

Breeder classification: +++ = very good / very high | ++ = good / high | + = medium

Resistance to diseases

Maize smut	<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="radio"/>
Helminthosporium	<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="radio"/>

Location

Soil type

heavy | light

Humidity

wet | dry

The figure shows two horizontal sliders. The top slider is labeled 'Soil type' and has a scale from 'heavy' to 'light'. The bottom slider is labeled 'Humidity' and has a scale from 'wet' to 'dry'. Both sliders have a dark teal bar representing the current range and a light teal bar representing the full range. A vertical line marks the center of each scale.

Sowing

Grain	7 - 8 Plants/m ²
