

## DAKOTA

MEDICAGO SATIVA

### Profile

DAKOTA was selected for yield and persistence with strong winter survival and designed to excel in the Great Plains of Western Canada and Northern US with fall dormancy 4. DAKOTA maintains excellent forage quality and has a strong balanced multiple pest resistance package to give a long stand life. It shows especially high resistance against Phytophthora root rot, even under flooding conditions.

National listing/Official recommendation:  
AR, CA, DE, RU

**Sowing rate:** 18-20 kg/ha

- ✓ dormancy group 4
- ✓ excellent winter survivability
- ✓ superior forage yield

### Agronomic properties

Beginning of flowering

early to inter

Early growth development

medium to strong

Stem height - full development

medium

## Tends to

Lodging		medium to strong
Winter damage		medium

## Yield characteristics

Dry matter yield total		medium to high
Dry matter yield - 1st cut		medium
Dry matter yield - further cuts		medium to high

Classification according to the descriptive variety list - Bundessortenamt (federal plant variety office, Germany) - conventional 2024 and our own results.

## Quality

Crude protein content		medium to high
-----------------------	--	----------------

## Resistance to diseases

Bacteriosis	
Fusarium	
anthracnose	
Phytophthora root rot	
Verticillium wilt
