

ZORRO

Crimson clover

Suitable for later sowing

Profile

ZORRO is an overwintering crimson clover with many uses (cover crop, fallow, forage). ZORRO is characterised by its early flowering, faster youth development and high biomass production. Its flowers are a source of nectar and pollen and its nitrogen fixation potential characterise it as good component within cover crop and forage mixtures.

National listing/Official recommendation: BY, SK

- Excellent youth development
- Early flowering
- Medium to tall plant length

Also available in Organic quality
