

RAFTING

ca. S 210 | ca. K 200

Raft your way to massive harvests!

Profile

Rafting is the ideal choice for a diverse use – both for silage and grain production. The variety has been tested across Europe for two years with excellent results. This early maize variety impresses with outstanding grain yields and very good overall dry matter yields. With good starch content, Rafting ensures high-quality feed. Efficient, high-yielding, and reliable – Rafting is the perfect choice for a secure and economical harvest.

- Early double-purpose maize variety
- High grain yields
- Excellent DM-yields with extraordinary starch contents

Also available in Organic quality

General

Usage	
Silo maturity	early
Grain maturity	early
Maturity forage	ca. 210
Maturity grain	ca. 200
Type of grain	flint intermediate
Hybrid	Single-cross
Sowing date	early | late

Breeder classification: +++ = very good / very high | ++ = good / high | + = medium

Resistance to diseases

Maize smut	+ + ○
Fusarium	+ + ○
Helminthosporium	+ + ○

Location

Soil type	heavy | light
Humidity	wet | dry

Sowing

Forage	8 - 10 Plants/m²
Grain	8 - 9 Plants/m²
