

LIVIOLETTA

FIELD PEA

Top variety for green manuring and forage use

Profile

LIVIOLETTA is one of the top field pea varieties for green manuring and forage. It shows good standing ability and produces a high protein content and high dry matter yields. A low thousand grain weight reduces sowing costs. This variety is excellent for cover cropping.

- ✓ One of the top pea varieties for green manuring or forage use
- ✓ Less prone to lodging
- ✓ High protein contents and dry matter yields

General

Green fertilizer	✓
Use as fodder	✓

Classification according to the descriptive variety list - Bundessortenamt (federal plant variety office, Germany) 2025 and our own results.

Special characteristics

For all soils; very undemanding; very good, deep rooting; provides protein-rich forage

Sowing

140 - 160 kg/ha

Sowing date

as cover crop: beginning of July to mid-August

for forage production: mid-March to end of April

Usage

Pasture, cutting, cover cropping
