

LINKARUS

Crimson clover

Suitable for multiple uses

Profile

LINKARUS is a winter hardy crimson clover variety suitable for a range of uses. The variety is characterised by its rapid growth, medium-early flowering, and a well-developed root system and dense foliage. Due to its low-competition characteristics, LINKARUS is suitable as a component in cover crop and forage mixtures.

National listing/Official recommendation:
BY, DE

- Efficient cover crop and forage variety
- Intermediate flowering
- Ideal mixture component
