

ROMANCE

ca. S 230 | ca. K 220

Stable to starch yield

Profile

Romance is our new dual-purpose hybrid in the early maturing segment. The medium-high plant combines a very high grain yield potential with very good lodging resistance and low cob set. Due to its cob-oriented architecture, it achieves high starch contents and yields in silage.

- Very good grain yield
- Dual-purpose variety
- Above average starch content/yields

General

Usage	
Silo maturity	mid-early
Grain maturity	early
Maturity forage	ca. 230
Maturity grain	ca. 220
Type of grain	dent intermediate
Sowing date	early | late

Breeder classification: +++ = very good / very high | ++ = good / high | + = medium

Location

Soil type	
Humidity	

Sowing

Forage	9 - 10 Plants/m²
Grain	9 Plants/m²
