

PANACHE

Bristle oat

Reliable cover crop type

Profile

PANACHE bristle oat grows rapidly and has a deep root system, which helps to improve the soil and strengthen its structure. It is a medium to long variety with a medium-early to medium-late flowering period. PANACHE is therefore a good compensatory variety, making it ideal for use in catch crop mixtures. The variety freezes off reliably.

- Vigorous and leafy
- Rapid youth development
- Undemanding compensation type
