

EG PRO 120 COOLSHADE & FINE

EUROGRASS Pro Garden & Green

A premium shade lawn mixture that ensures dense, healthy turf in shaded environments

Profile

A specially composed shade lawn with the new grass species Dechampsia Caspiosa is the perfect choice for those who seek a green and dense lawn under trees or other shady areas. This grass is particularly adaptable and thrives in shady areas where other grasses often struggle to survive.

The special thing about Deschampsia Cespitosa is its resistance to shade. Together with the fine fescue species, this mixture forms a fine and competitive solution for shady.

- Specially designed for shady and partially shaded areas
- Contains the innovative grass species Tufted hair-grass
- Combined with fine fescue species for balanced growth
- Thrives where conventional lawn grasses struggle
- Ideal for gardens, parks, and green spaces with limited sunlight

Components

40%	Deschampsia caespitosa Desanto
15%	Festuca rubra rubra Dipper
15%	Festuca rubra trichophylla Nicole
15%	Festa rubra commutata Annalena
15%	Festuca trachyphylla Mentor
