

EG PRO 220 ACTIVE HOT & DRY

EUROGRASS Pro Garden & Green

A strong, drought-resistant lawn grass mixture developed for dry conditions

RSM 2.2 / RSM 5.1.2

Profile

This robust mixture is particularly suited to areas with lower rainfall. The grasses it contains have deep root systems, ensuring the lawn can cope well with reduced water availability. It is the ideal mixture for areas prone to periodic drought or drier conditions where the lawn is subject to moderate stress. It is the perfect choice for playing fields, park lawns and tough domestic lawns.

- High drought tolerance with reduced water demand
- Maintains good turf quality under dry and challenging conditions
- Performs well under moderate stress and regular use
- Performs well under moderate stress and regular use
- Ideal for periodically dry or drought-prone locations

Components

75%	Festuca arundinacea Regenerate
10%	Lolium perenne Tetrasport
15%	Poa pratensis Zeptor
