

EG PRO 270 BIODIVERSITY LAWN

EUROGRASS Pro Garden & Green

A species-rich, ecologically designed grass mixture that promotes biodiversity, supports wildlife, and naturally improves soil fertility through nitrogen fixation

Profile

A natural grass mixture with high biodiversity thanks to the use of many different species and varieties that combine to create a vibrant, resilient and rich turf. This specially formulated blend contains a diverse selection of grass species and varieties that promote high biodiversity and support a healthy ecosystem that encourages insects, pollinators and other wildlife. Also included are species that fix atmospheric nitrogen which can contribute to a basic nutrient supply.

- Composed of numerous grass species and varieties
- Promotes high biodiversity within the turf
- Creates a vibrant, resilient, and species-rich sward
- Supports a healthy and balanced ecosystem
- Encourages insects, pollinators, and wildlife
- Includes nitrogen-fixing species
