

EG PRO 322 SPORTREGENERATION & DYNASEED PLUS

EUROGRASS Pro Sport

An advanced sports turf repair mixture with nutrient-coated seed for rapid establishment

RSM 3.2

Profile

Special mixture for the repair of all types of sports turf. Additionally the seed is provided with a highly effective nutrient coating that promotes the growth process of the young grasses and ensures improved nutrient uptake, strengthening the young plants from the outset. This mixture has been developed as a "first aid" treatment for old, worn lawns or for the re-vegetation of bare patches. Thanks to state-of-the-art seed technology, this mixture provides faster results and enhanced performance. The improved revitalization or reseeding solution can also be used in early spring or late autumn.

- Specially developed for repairing all types of sports turf
- Ideal as a “first aid” solution for worn or damaged lawns
- Features highly effective nutrient-coated seed
- Promotes faster germination and early growth
- Delivers quicker visible results
- Improves overall revitalization and turf performance
- Based on state-of-the-art seed technology
