

EG PRO 440 GOLF FAIRWAY

EUROGRASS Pro Sport

The construction of the largest area of a golf course is of paramount importance in ensuring optimal playing conditions.

RSM 4.4.4

Profile

The EG PRO 440 golf fairway mixture has been specially developed to meet the high demands of modern golf courses. Designed for the areas where the ball should land and be played, this mixture ensures excellent playing conditions. It provides dense, hard-wearing and regenerative turf that guarantees an attractive appearance and excellent playing conditions.

The mixture can also be used as semi rough or playable rough.

- Specially developed for modern golf course requirements
- Ensures excellent playing conditions
- Strong regenerative capacity after wear
- Delivers an attractive, well-maintained appearance
- Suitable for use as fairway, semi-rough, or playable rough
- Ideal for high-traffic golf course areas
