

EG PRO 740 FLOWER MEADOW

EUROGRASS Pro Landscaping

A diverse, perennial wildflower meadow mixture with over 40 native species

Profile

This meadow mixture is notable not only for the colourful blooms it displays, but also for the nectar it provides for a variety of insects. The different varieties of flowers in the meadow have been meticulously coordinated to ensure abundant blooms and pollen production while maximizing soil fertility. The mixture is characterised by its perennial and winter-hardy nature, and contains over 40 native flowers and wild herbs. The mixture is suitable for all areas of application.

- Rich source of nectar and pollen for insects
- Supports bees, butterflies, and other pollinators
- Promotes soil fertility and ecological balance
- Contains over 40 native flowers and wild herbs
- Suitable for a wide range of applications
