

EG PRO 760 ECOBALANCE

EUROGRASS Pro Landscaping

A sustainable, multifunctional greening mixture that promotes rapid establishment

Profile

Mixture with an ecological and functional design for rapid greening of any type with diverse vegetation to enable infiltration and reduce heat build-up. Enriched with plants that are able to store atmospheric nitrogen and make it available to other plants, so that nitrogen fertilisation is not required after establishment, a symbiotic plant community is created that is long-lasting and sustainable.

- Designed for rapid greening of diverse areas
- Combines ecological and functional vegetation design
- Promotes water infiltration and reduces surface runoff
- Enriched with nitrogen-fixing plants
- Forms a symbiotic, self-sustaining plant community

Components

25%	Festuca trachyphylla Negev
20%	Lolium perenne Tacita
20%	Festuca rubra rubra Rotary
15%	Festa rubra commutata Joanna
10%	Poa pratensis Limagie
5%	Trifolium repens Turf Euromic
5%	Lolium multiflorum Cairo
