

TERRALIFE® - VITAMAXX DT

Fast-growing, legume-free mixture for late sowing

Profile

VitaMaxx DT contains fast-growing species that contribute to a quick cover crop stand development. Therefore, this mixture is especially suitable for late sowing dates. Moreover, it is designed for the use in water protection areas, since is does not contain any legume species. VitaMaxx DT contains species enhancing deep and diverse rooting, this can contribute to a higher potential of soil organic matter formation.

- For water protection areas and livestock farms
- High biomass and nutrient uptake
- Diverse root system

Components

0%	Legumes
41.4%	Cruciferous
	Bristle oat, Fagopyrum tataricum, Niger, Mustard, Linseed, Falseflax, Abyssinian cabbage, Phacelia, Deep-rooted radish, Sunflower

Seed shares (%)

Sowing pattern

	blank seed, mulch sowing, direct sowing, spreader device on tillage implement, scattered seed, drone

Crop rotations
