

# PRESTO

*Phleum pratense*

## Profile

Very high yields under conservation management and under high simulated grazing are the main characteristics of PRESTO. These outstanding results are connected with a very good early spring growth and a high quality. Other arguments for PRESTO are a very good winter hardiness and a high sward density.

National listing/Official recommendation:

BE, BY, FR, LU, NL, UA, UK

- ✓ Milk Index variety
- ✓ combination of high yields with great forage quality
- ✓ rapid early growth development
