

ESTRADA

Lolium perenne

Profile

The late tetraploid Perennial ryegrass ESTRADA shows an excellent yield performance. This is valid for the total yield in grazing and cutting. This strength is combined with a very good persistence and good rust and Helminthosporiose resistance. Winter hardiness is also interesting.

National listing/Official recommendation:
FR, NL

Sowing rate: 40 kg/ha

- ✓ strong yield performance
- ✓ good rust and Helminthosporiose resistance
- ✓ interesting for grazing and cutting

Suitability

Ploidy	tetraploid
Maturity	late
