

ABERCREST

Trifolium repens Turf

Profile

ABERCREST is our small-leaved microclover for lawn mixtures with good classifications in international rankings[1]. ABERCREST remains low, has slow regrowth of small leaves with a good winter hardiness. ABERCREST tolerates frequent close mowing and moderate wear. Due to his ability to store atmospheric nitrogen microclover is suitable for parks and sports fields also under low maintenance conditions. It produces fresh green colour during the summer and all the year.

- Suitable for lawn and park mixtures
- Fresh green colour all the year
- No need for additional fertilizer
- Less water requirements
- Low maintenance requirements
- Excellent performance
