

BOTOND

LOLIUM PERENNE

Profile

The tetraploid intermediate Perennial ryegrass BOTOND impresses with its outstanding yield potential. BOTOND achieved significantly above-average yields in both the northern and mid-southern German regional trials. Especially in dry locations, BOTOND proved to be the best variety, with a relative dry matter yield of 110. Combined with superb persistence and winter hardiness as well as low susceptibility to rust, BOTOND is the perfect choice for healthy and high yielding forage growing.

Sowing rate: 40 kg/ha
