

## THERESE

LOLIUM PERENNE

### Profile

THERESE is DSV's newest late, tetraploid perennial ryegrass suitable for peat soils. THERESE shows a balanced and persistent yield distribution with good rust resistance and sward density. This makes it ideal for grazing as well as for cultivation on peat soils.

#### National listing/Official recommendation:

DE, NL

**Sowing rate:** 40 kg/ha

- Suitable for peat soils and grazing
- Persistent and good sward density
- Low susceptibility to rust

### Suitability

|                       |                                     |
|-----------------------|-------------------------------------|
| Ploidy                | tetraploid                          |
| Maturity              | late                                |
| Peat-soil suitability | <input checked="" type="checkbox"/> |

## Yield characteristics

|                                 |  |                |
|---------------------------------|--|----------------|
| Dry matter yield total          | <span>1</span> <span>2</span> <span>3</span> <span>4</span> <span>5</span> <span>6</span> <span>7</span> <span>8</span> <span>9</span> | medium to high |
| Dry matter yield - 1st cut      | <span>1</span> <span>2</span> <span>3</span> <span>4</span> <span>5</span> <span>6</span> <span>7</span> <span>8</span> <span>9</span> | medium to high |
| Dry matter yield - further cuts | <span>1</span> <span>2</span> <span>3</span> <span>4</span> <span>5</span> <span>6</span> <span>7</span> <span>8</span> <span>9</span> | medium to high |

## Plant stand development

|                                 |  |                |
|---------------------------------|--|----------------|
| Early growth development        | <span>1</span> <span>2</span> <span>3</span> <span>4</span> <span>5</span> <span>6</span> <span>7</span> <span>8</span> <span>9</span> | medium         |
| Susceptibility to winter damage | <span>1</span> <span>2</span> <span>3</span> <span>4</span> <span>5</span> <span>6</span> <span>7</span> <span>8</span> <span>9</span> | low to medium  |
| Tendency to lodging             | <span>1</span> <span>2</span> <span>3</span> <span>4</span> <span>5</span> <span>6</span> <span>7</span> <span>8</span> <span>9</span> | medium         |
| Persistence                     | <span>1</span> <span>2</span> <span>3</span> <span>4</span> <span>5</span> <span>6</span> <span>7</span> <span>8</span> <span>9</span> | medium to high |
