

MUNIDA

Trifolium repens

Profile

The large-leaved, medium to late flowering white clover variety MUNIDA grows medium to tall and exhibits high shoot vigor. Compared to other large-leaved varieties, MUNIDA contains a lower hydrocyanic acid content. In addition, it convinces by a high competitive strength against weeds and by a high dry matter as well as crude protein yield.

MUNIDA is officially recommended in Switzerland and Luxembourg and now also listed in Austria.

- ✓ large leaf size
- ✓ high yield potential
- ✓ high disease resistance
