

POLLEN

Lolium perenne

The iceman!

Profile

POLLEN is the new variety with best qualities in sports and lawns. He is a jump starter, because of his excellent quality to germinate also during winter. In tests POLLEN starts growing 25% faster than average of the varieties. Only Pollen will be the champion in the cold season. Common use is possible with this very wear-tolerant turfgrass. Perennial ryegrass POLLEN builds a perfect sod and shows an outstanding establishment. Neither fusarium nor rusts have a chance: POLLEN resists them all. POLLEN is the No. 1 and first choice for unfavourable weather conditions, especially during winter time.

- Ideal for overseeding during winter
- Red-Thread-and Estivale-tolerance
