

TURFGOLD

Lolium perenne

Rich green and wear tolerant

Profile

Our deep-green variety with highest slow regrowth values is ideal for amenity lawns with a low maintenance requirement. An important aspect is also the exceptional green colour in winter, which makes the turf visually attractive even during the cold season. TURFGOLD combines particularly robust genetics with darker texture and a medium width leaf blade. This results in a hard-wearing vital variety at an attractive price!

- High aesthetic value even during the winter months
- Very low maintenance requirement
- Reduced cutting intervals and biomass amounts
- Fungicide use barely necessary
- Indispensable for all professional turf mixtures

STRI S1 - Sport uses

Mean	5.6
Recovery	6
Visual merit	5.5
Shoot density	5.3
Fineness of leaf	5.1
Disease resistance	6.3
Winter greenness	6.9
Summer greenness	6.8
