

MELYANE

The sunny side of life!

Festuca arundinacea

Profile

MELYANE forms a very dense and good looking lawn. Due to its colour it will mix nicely with other species. It is suitable for ordinary lawns, for sports pitches and for landscaping. MELYANE is perfectly adapted to hot and dry conditions and the shade tolerance is good. Top class in fineness of leaf and density make MELYANE the first choice for all premium mixtures, where density, wear tolerance and drought resistance play the major role.

- ✓ Nice medium to slightly dark green colour
- ✓ Very dense and fine leaved
- ✓ Good disease resistance
- ✓ Low frequency of cutting
- ✓ Suitable for hot and dry conditions

STRI L8 - Lawns, Landscaping

Mean	6.8
Slow regrowth	5.9
