EUROBEAT

Lolium perenne

The rhytm for sport

Profile

A high-performing ryegrass created as a sports type, uniform and homogenous, shows EUROBEAT no weakness at the STRI test series.

A top 10 rank is the result and shows once again the high performance of the DSV turfgrass breeding department.
EUROBEAT stands out with a great appearance, as it got the highest scores for summer and winter aspects from our breeders, which is unique. As it stands, traffic is a top performer; it really sticks out in this character. This is the reason why EUROBEAT ranks so high on the STRI list series S for sports use.
EUROBEAT is the ideal partner in mixtures for sport purposes and can provide an upgrade for older pitches in terms of performance and quality. In this case, a renovation mixture would be the appropriate mix to put it in. With the nice winter aspect, it also makes sense to add it to a special mixture for autumn sowing to boost winter appearance.

- Created for sport pitches
- 20% better wear resistance compared to standard
- Highest aspect scores in summer and winter
- Perfect for overseeding

STRI S1 - Sport uses

Mean	7.8
Recovery	6.8
Visual merit	7.7
Shoot density	7.2
Fineness of leaf	6.6
Disease resistance	5.4
