

EUROBEAT

The rhythm for sport

Lolium perenne

Profile

A high performing Perennial ryegrass created as sports type, uniform and homogeous, EUROBEAT displays few weaknesses at the STRI test series. A top ten result proves once again the high performance of the Eurograss breeding.

EUROBEAT stands out visually and statistically due to its high scores for summer and winter colour and performance from our breeding trials.

EUROBEAT is the ideal partner in mixtures for sport purposes, in terms of performance and quality. Due to this, it is recommended for use in renovation mixtures. With the strong winter greenness, EUROBEAT can be added to mixtures for autumn sowing to boost winter appearance.
