

TASIDA

Festuca rubra trichophylla

Impressive colour and performance!

Profile

TASIDA – an exceptional colour distinguishes this varieties form all others in the segment, as Tasida has a unique dark leaf color. TASIDA is highly recommended on the Grasgids list with high scores in sward density and stability. High scores on the STRI list in UK also reflect the excellent turf quality of TASIDA; extraordinary results in close mowing fulfil highest standards and top listing. Therefore, this superior variety is especially suitable to mix with other dark green varieties of different species. It should not be missing in any professional lawn mixture

- Bright shining dark colour
- High aesthetical value
- Well adapted to close mowing
- Good persistency

STRI L4 - Lawns, Landscaping
