

HONOREEN

Yield, more yield, HONOREEN

S 290

Profile

HONOREEN is a mid-late dent maize with a high starch yield and a silage maize for favorable sites for maize cultivation. Visually, the variety stands out due to its height and enormous leaf mass. The long cobs have 16 to 18 grain rows and good tip filling. In addition, this maize has a quick juvenile development, a good stay-green character and a healthy stem. In 2023, HONOREEN was tested in the EU-trials in the medium-late silage maize maturity segment for the second year and achieved the top position in the - ranking for total dry matter yield (rel.).

- ✓ Visually impressive maize hybrid
- ✓ High-yielding biomass type
- ✓ Winner of biogas trials from Pro-Corn in 2022

General

Usage

Silo maturity

mid-late

Maturity forage

290

Type of grain

flint intermediate

Hybrid

Three-way cross
