

Otsaat Dr. Baumann's
Hairy vetch
(*Vicia villosa*)

N-fixing and soil improving

Otsaat Dr. Baumann's is a highly reliable variety for winter cover crop cultivation. It shows excellent winter hardiness and tillering as well as lush foliage. It is an ideal overwintering green manure before maize and root crops. Furthermore, Otsaat Dr. Baumann's is a valuable protein source in forage and pasture seed mixtures.

- ✓ Good winterhardiness, littering and lush foilage
- ✓ Ideal overwintering cover crop previous to maize
- ✓ Valuable nitrogen source in forage and pasture blends
