

COUNTRY ENERGY 2031

KräuterKleeGras MultiLife

Kräuterreiche, stresstolerante Mischung für den mehrjährigen Feldfutterbau

COUNTRY Energy 2031 offers an ideal combination of valuable grasses, clovers and herbs for high quality and energy densities. Plantain and chicory increase palatability and, like red clover, stabilise yields, especially under dry conditions. Suitable for new sowings and perennial field forage.

- ✓ Herbs for higher palatability
- ✓ Herbs for higher palatability
- ✓ Flexible in use
- ✓ Red and White clover for N-fixation

COUNTRY Energy 2031 offers an ideal combination of high-value grasses, clovers, and herbs, providing excellent forage quality, high energy density, and strong stress resilience. The legumes are treated with DSV DynaSeed LegumeMaxx, a seed treatment that has been proven to significantly enhance nitrogen fixation, root development, and ultimately crop yield.

Components

22 %	Lolium perenne (late)	Valerio
20 %	Festuca pratensis (tetraploid)	Schwerta
17 %	Festuca arundinacea	Roscati
15 %	Trifolium pratense	Harmonie, Milvus, Taifun
12 %	Phleum pratense	Radde
5 %	Dactylis glomerata	Rosseur
5 %	Trifolium repens	Bianca, Liflex
2 %	Plantago lanceolata	
2 %	Cichorium intybus
