

COUNTRY ORGANIC FIELD FORAGE 2488

Clover grass intercropping

Fast-growing clover-grass mixture for cover crop use

COUNTRY Field forage 2488 is a composition of compatible annual ryegrass and clovers. This mixture is fast growing, high yielding and palatable. It meets the demands concerning green fodder as well as silage.

The legumes are treated with DSV's DynaSeed LegumeMaxx, which contains among others species-specific bacteria. DynaSeed LegumeMaxx demonstrably and significantly improves nitrogen fixation, root development, and thus yield.

- ✓ Fast growing through Annual ryegrasses
- ✓ For intensive use
- ✓ High yielding and high quality forage
