

RADDE

Phleum pratense

International listings/recommendations: CA, BY, DE, SE

You are searching for a timothy variety that is well adapted to different site conditions, especially for nordic climates? It is called RADDE! The main characteristics are a stable yield over locations and an early heading date. The additional good winter hardiness leads to a robust variety for cooler regions.

- ✓ perfectly adapted to Nordic climate
- ✓ highest yielding variety on German list
- ✓ early heading

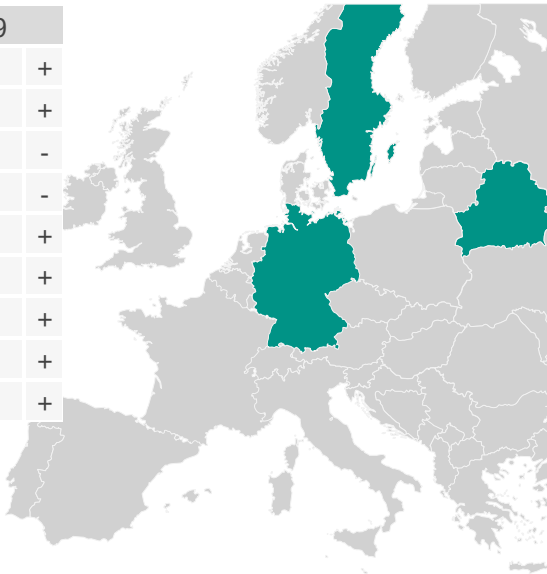

Agronomic Characteristics
