

ROPRIX

Dactylis glomerata

International listings/recommendations: CH, DE, DK

The mid-early cocksfoot variety ROPRIX is characterized by high yield performance with an even yield distribution and high rust resistance. Furthermore, in both official and internal trials, ROPRIX has demonstrated very good winter hardiness, i.e. minimal winter damage and fast early growth development.

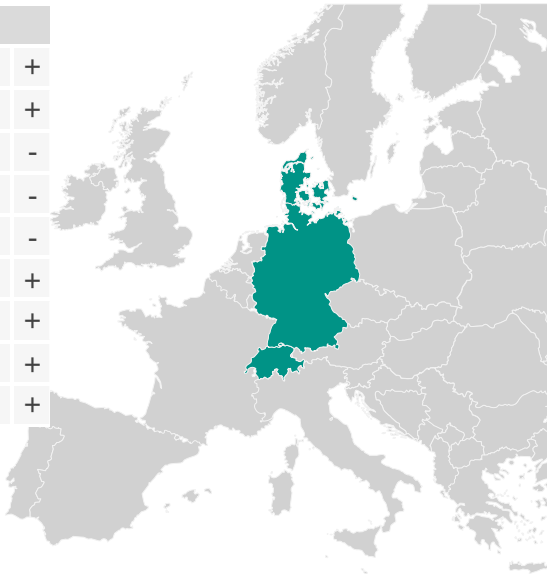

- ✓ very high yield potential
- ✓ high winter hardiness
- ✓ good early growth development
