

ROTINO

Festuca arundinacea

International listings/recommendations: BE, CA, DE, FR

ROTINO originates from the new DSV tall fescue breeding and is one of DSV's first soft-leaved tall fescue varieties. Its special soft leafiness increases the acceptance of the cattle on the pasture. ROTINO has a late maturity and convinces with a high dry matter yield, especially in the later cuts, as well as a very good health due to the particularly low susceptibility to rust.

- ✓ soft-leaved
- ✓ very high yielding
- ✓ very good rust resistance

Agronomic Characteristics

BSA-score range:		1	2	3	4	5	6	7	8	9	
Maturity	-										+
Early growth development	-										+
