LIHEROLD is a very impressive, persistent and healthy Meadow fescue variety. Its advantages are the dry matter production at the beginning of plant development and in the yield in the first cut. LIHEROLD also achieved best marks in the important characteristics yield at regrowth, persistence, winter hardiness, tolerance to rust and total dry matter yield. Due to these characters LIHEROLD belongs to the best varieties in the German and European portfolio of Meadow fescues.

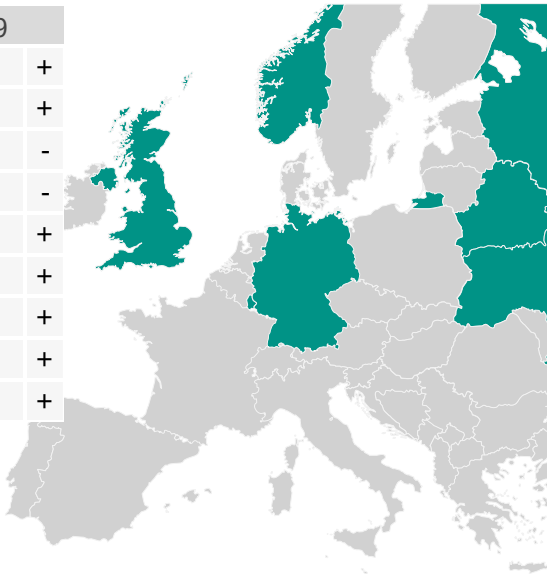

- ✓ strong early growth development
- ✓ very high-yielding, winter-hardy and perennial variety
- ✓ outstanding sward density
