Qualität erhältlich

tetraploid  
late

International listings/recommendations:  
BE, BY, CA, DE, DK, LU, RU, UA, UK

VALERIO is an interesting combination of good yield and remarkable persistence. The tetraploid, late perennial ryegrass with an “M”, showing a special suitability for peat soils in the grassland areas, like North Germany. It achieves great total dry matter yields, in particular in the first cut (relative 109 in the North German region).

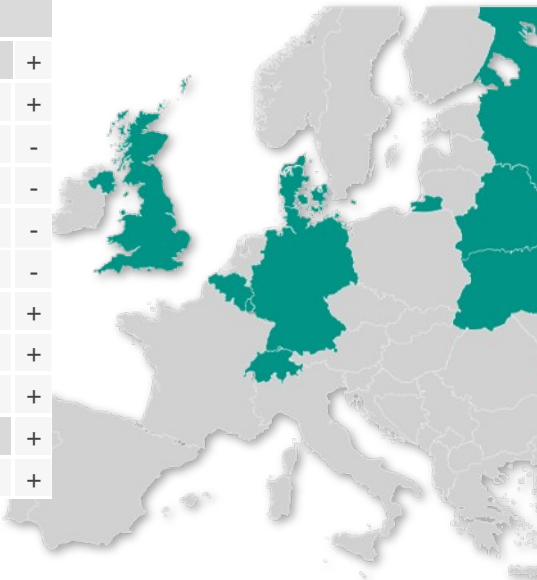

- ✓ highest DM yields, esp. in the first cut
- ✓ widely recommended top variety
- ✓ healthy, persistent and suitable for peat soils
