

FALLADINO

Lolium westerwoldicum

Tetraploid
inter
International listings/recommendations: BY, CA, DE, EC, UY

FALLADINO is a tetraploid Annual ryegrass bred by DSV. The early growth development combined with a low susceptibility for lodging and rust make FALLADINO to a good choice for cover crop growing. This is additionally supported by its good first cut yields.

- ✓ for intercropping use
- ✓ outstanding rust resistance
- ✓ stable yielding
