PLANET is one of the best alfalfa varieties. It has a good resistance to Verticillium and Fusarium as well as high persistence and stable yields. Another advantage of PLANET is its high green matter and protein yield in all cuts. PLANET can be used for three continuous years and is especially useful on sites susceptible to Verticillium. Due to the excellent variety performance, PLANET is listed in many Eastern European countries. PLANET is in dormancy group 3*.

- ✓ dormancy group 3
- ✓ good resistance to alfalfa wilt and fusarium
- ✓ good regrowth ability
- ✓ high proportion of leaves

Agronomic Characteristics

BSA-score range:	1	2	3	4	5	6	7	8	9
Beginning of flowering	-								+
